Character

I am an active and healthy person who works hard and always finishes what I start. I have over 15 years of experience as a software engineer and have built many different types of applications. I make sure every project I undertake is done well and makes the customer happy. I have good communication skills and I can easily work with others. I am a well organized person and always take full responsibility for my job.

Work Experience

In my 15 years as a software engineer, I always make sure I understand the big picture and am knowledgeable enough in every step of the process. I always make sure that my codes are organized and self descriptive for easy maintenance and readability. I can quickly fix most issues within a day and my teammates often say I'm "always fully charged" due to my quick updates.

Before I work on any task or solution, I always check first with the manager or customer to make sure we're on the same page. I have strong experience in system analysis and design, databases design and UI/UX design. I have made lots of applications like Sales and Inventory, CRM, Payroll, Parking System, eCommerce, subscription system.
